HURON VALLEY IRIS GARDENS

ANN ARBOR, MICHIGAN

U. S. A.

IRIS

SAM BURCHFIELD
IRISARIAN

Huron Valley Iris Gardens

I do no wholesale trade. I offer no discount.
Prices are strictly net.

Remittance must accompany orders.

Orders are accepted on condition that they will be void should the stock be oversold or failure through causes beyond my control.

Stock will be prepaid anywhere in the United States at the price quoted.

No substitutions will be made unless requested.

You are a welcome visitor to the garden at any time.

I earnestly urge you to become a member of the American Iris Society. Annual dues \$3.00, payable to J. B. Wallace, Jr., 129 Church Street, New Haven, Conn.

SAM BURCHFIELD
IRISARIAN

A Descriptive Iris List

HYACINTHIANA

(Special Feature)

Hyacinthiana was discovered by the late Reginald Farrar and numbered 496. It belongs to the Ensata group and grows abundantly all over the loess lands of Kansu, China.

The dark green foliage tops the flowers, which are blue and white, two to a stem. The foliage continues to grow until September, when it is fountain-like, similar to an ornamental Japanese grass. This plant would be very desirable if it never flowered, but it throws up abundant stems and is a sure bloomer. Very hardy. Just ordinary soil.

DWARF IRIS

Pumila, Chameiris and Hybrids

I specialize in this class of iris and offer a very fine and complete collection. The nomenclature is greatly confused and many varieties are offered under three or four different names by dealers. In this list you will find no duplicates. The variety CYANEA is offered by many dealers as blackish purple, dark purple, violet, etc. In fact, the true plant is a rich medium blue (no purple) with a blue beard and a white fan, or halo, on the falls, one of the most beautiful dwarfs we have. Most of the varieties bloom in late April, but there are a few that bloom as late as June and vary in height from 4 inches to 12 inches. Those in bold type and having the letters H. V. after the name are Huron Valley introductions.

ALBATRE	6"	
7½-inch; A	near white, veined pale lilac; beards white \$0.35
ALPIN	(Millet 1916) 5"	
7½-inch; S., Lobelia	blue; F., reddish purple	\$0.35
ARENARIA	(Collected) 3"	
3-inch; medium yellow	self. R. G.	\$1.00
ARGUS	6"	
White with a bluish tint		\$0.50
ARMEE D'ORIENT	(Millet 1919)	
S., yellow; F., lightly washed violet		\$0.35
ATROVIOLACEA	6"	
Purple, with blue beard. Scented.	The first to flower	\$0.35
AZUREA	6"	
Very early; sky blue		\$0.75
BARBARA	(Foster) 10"	
Cream, purple and olive		\$0.35
BALCENG BLUEBEARD	10"	
Balkana x Cengialt; cream, green and blue		\$0.35

Huron Valley Iris Gardens

BALCENG CURIOSITY	10"	
10-inch; yellow, purple and olive	\$0.35
BALCENG HARLEQUIN	10"	
Yellow, purple and olive	\$0.35
BALCENG MRS. WHITE	10"	
10-inch; S., cream; F., cream and olive	\$0.35
BALAKANA	8"	
Brown purple, form of Reichenbachi; reddish purple	\$0.50
BIFLORA (Collected)	6"	
S. and F., purple violet. I have not known this plant to flower twice in one season	\$0.35
BLACK MIDGET (McKinney)		
A very dark purplish blue	\$2.00
BLUESTONE	6"	
S., violet; F., purple	\$0.35
BOQUET (Millet)	6"	
White and pale red	\$0.35
BOSNIAMAC	14"	
Pretty hybrid, strong growing and floriferous; S., broad cream; F., pale lavender cream; orange beard; distinct, soft colouring and fine form; mid-May, 18-in.	\$0.35
BRAUTJUNFER	6"	
S., lilac white; F., yellow at base, purple at ends	\$0.35
BRIDESMAID	10"	
Creamy white; 4 inches	\$0.35
BURGOS (Millet)	6"	
Violet lilac; a reddish tone	\$0.35
BUZZER (H. V.)	9"	
S., light lavender blue; F., same color, overcast rusty; gives the falls a pink tone	\$0.75
CANARI (Millet)	9"	
Straw yellow self	\$0.35
CANARY BIRD	12"	
A good prolific; medium yellow	\$0.35
CANDIDA	6"	
A white self	\$0.50
CHAMEIRIS ALBA	6"	
A creamy white self. This is a very beautiful iris; true stock is rare	\$1.00
CHAMEIRIS AUREA MACULATA	6"	
Yellow and some maroon	\$0.35
COERULEA (True)	6"	
Delicate tint of blue. Stock limited	\$1.00
COMANDANT DRIANT (Millet)	6"	
S., white, tinted violet; F., violet	\$0.35
CONTESSA HAUTVILLE (Millet)	6"	
S., violet purple; F., garnet. This variety is extra good	\$0.35
CRISTATA (Native)	4"	
A fine rock plant. Plant in half shade in leaf soil. The color is variable shades of lavender	\$0.35
CYANEA (True)	6"	
A medium blue self; beards blue; falls have a white fan or halo. This iris is one of the most beautiful dwarfs in cultivation. The true stock is apparently rare.	\$0.75
DANNY BOY (H. V.)	6"	
S., red purple; F., darker, flaring, red purple; rich red beards extends free about $\frac{3}{8}$ ". Stock limited	
DELICATA	6"	
Creamy white	\$0.50

Ann Arbor, Michigan

DITTON PURPLE	5"	
	This is one of my best; dark plum, purple selfs	\$0.35
DIXMUDE (Millet)	6"	
	Dark blue and reddish violet	\$0.35
EBURNEA	10"	
	S., cream; F., darker	\$0.35
ENDYMIAN (H. V.)	9"	
	Very beautiful dark ruby red self; even the rizomes are red.	\$0.50
FIEBERI (Collected)	6"	
	Violet blue	
FI FI (H. V.)	5"	
	Creamy self, stained green	\$0.75
FLORIDA	6"	
	Cream yellow	\$0.35
GLEE (McKinney)	12"	
	Cream self; 2 flowers to stem	\$1.00
GPACILIS	8"	
	An albino form of Aphylla. Cream, stained purple. Stock limited	\$0.50
GRAMINEA	8"	
	Garnet colored self	\$0.35
GRAND MONGOL (Millet)	10"	
	S., blue; F., purplish. Beards gamboge yellow	
HARBOR LIGHTS (H. V.)	8"	
	I believe this iris to be the best light yellow. Sulphur yellow	\$0.50
HARRIS (Millet)	8"	
	Violet blue tones	
HAYDN	8"	
	Porcelain white and gray	\$0.50
HUNGARICA	10"	
	The bloom, which is large and of perfect shape, is about the color of claret wine. The spath buds before rupture are very plump and of a mossy dark bottle green color, unlike any other iris I know. Foliage dies away in winter	\$0.75
HURON IMP (H. V.)	6"	
	Very large flowers; dark blue, almost black; very floriferous	
JUDY (H. V.)	9"	
	A dark ruby self; very fine	\$0.75
KURDISTAN (Dykes)	9"	
	Red purple self	\$1.00
LADY BIRD (H. V.)	4"	
	S., red purple; F., rich velvety maroon. Stock limited	\$1.00
LA FIANCÉE	8"	
	S., bluish white; F., same color, veined maroon	\$0.50
LE BOUDET (Millet)	8"	
	S., blue; F., deep purple, almost black. Beards yellow	
LE LIDO (Millet)	8"	
	Lilac self	\$0.35
LURIDA (Collected)	9"	
	This is one of the very fine dark rich reds	\$1.00
LUTEA (Old, old one)	6"	
	Yellow self	\$0.50
LUTESCENS (Var. Statelae)	12"	
	A fine shade of sulphur	\$0.35
LUTESCENS ALBA	10"	
		\$0.50
LUTESCENS PURITY	10"	
	A very pure white	\$0.50

Huron Valley Iris Gardens

MAIA (Millet)	8"	
S., bluish violet; F., violet cardinal with darker veins. Sweet scented		\$0.35
MANDARIN (Millet)	9"	
Dark straw yellow self		\$0.35
MAROCAIN (Millet)	10"	
This is one of the best dark blue dwarfs I have. It has no fault that I know		\$0.50
MACROCARPA	5"	
A true pumila of rich violet tones. The very earliest to bloom		\$0.35
MARGARET	6"	
Here we have something extra fine. A light sky blue self. Its blooming season is the first week in June. Stock limited		\$1.50
MAX (Millet)	6"	
S., gold yellow; F., darker. A very fine iris		\$1.50
METEOR	8"	
A garnet self. About the same color as Oriental		\$0.35
MIREILLE BABOEUX (Millet)	8"	
S., violet; F., same color, bordered darker. Beards yellow. Stock limited		\$1.00
MISTRAL (Millet)	8"	
S., violet purple; F., reddish purple		\$0.35
MONS. STEICHEN (Denis)	10"	
Chameiris Alba x Iberica, described on next page		\$5.00
MOQUETO (H. V.)	8"	
S., azure blue, white haft; F., darker, white haft. Color similar to Dorothea. Stock limited		\$1.00
NEGUS (Millet)	5"	
Dark blue purple self		\$0.35
NIOBE	5"	
This is a real beauty. Very dwarf; dark purple self; blue beards. One of the best blue blacks		\$0.35
NUDICAULIS	8"	
A form of Aphylla. Reddish blue type		\$0.35
NUDICAULIS PURPUREA	8"	
Darker than the type		\$0.35
ORANGE QUEEN	8"	
Deep yellow self. This is one of the fine dark yellows		\$0.35
ORIENTAL MILLET	8"	
S., ruby red; F., garnet		\$0.75
PENGE	6"	
Purple. Good dwarf. S., dark red violet; F., rich plum		\$0.35
PETITE AMIE (Millet)	8"	
Greenish white and cream		\$0.35
PETITE DANIEL (Millet)	8"	
Clear blue self		\$0.35
PHOEBUS (Millet)	6"	
A very fine clear yellow self		\$0.75
PRINCESS LOUISE (Perry)	10"	
A very good blue. Stock limited		\$1.00
QUAINT (H. V.)	5"	
This is a dwarf squalens. The brilliant yellow beards look like jewels nestled in the folds of red brown silk plush. The plant itself is a floral jewel. Stock limited		\$3.00
REFLECTION (H. V.)	6"	
S., gray blue, edged faintly with yellow; F., same color, veined at haft with purple brown		\$1.00
REICHENBACHI (Collected)	6"	
Yellow self		\$0.35

Ann Arbor, Michigan

REICHENBACHI	6"	
Var. orange; deeper yellow than type		\$0.35
ROYAL PURPLE	6"	
A very dark purple self		\$0.35
SNOW CAP (G. & K.)	10"	
White self		\$0.35
SILVER ELF (H. V.)	10"	
S., pure white; F., gray, delicately lined light blue		\$0.75
SOCRATES	8"	
Claret red self. A very fine dwarf		\$0.50
SONNY (H. V.)	1926 6"	
A fine deep yellow self; large blooms and extremely floriferous.		
The finest deep yellow dwarf that I know		\$0.75
TRAUTLIEB (G. & K.)	12"	
While this iris is not strictly a dwarf, it can be classed as such.		
The color is a very fine pink		\$0.35
URCHIN (H. V.)	6"	
S., bright creamy yellow; F., deep yellow, deeper at haft, brown veins; dark yellow beards that extend free $\frac{1}{4}$ inch		\$0.75
VERNA	5"	
One of our most beautiful native iris. It must have conditions that would satisfy Trilliums to do well.		
VERDUN (Millet 1916)	8"	
Plum violet self		\$0.75
VILLEREAL (Millet 1910)	6"	
Lilac mauve self		\$0.35
WENDY (H. V. 1926)	(No. 223) 6"	
S., lavender blue; F., flaring, half white and half dark blue		\$1.00
WIGAN (Millet 1912)	8"	
The general tone as viewed from a short distance is a brownish red. Very pretty		\$0.50
ZANZIBAR (Sturtevant)	6"	
Violet		\$0.35
ZOBEIDA (H. V. 1923)	6"	
S., smokey lavender; F., dark velvety lavender purple, with a bloom on the petals		\$0.35
ZULLICHAU (Millet 1912)	8"	
Dull dark blue		\$0.35

MONS. STEICHEN

S., large, upright, bluish white; F., yellow, veined maroon, with a large purplish maroon signal patch; stylis wide, cream white. This is a very beautiful iris. Stock limited.

Huron Valley Iris Gardens

TALL BEARDED IRIS

This class of iris blooms lavishly in June, when it has a fine setting of flowering shrubs, etc., for a picture, hence a stronger appeal to the average garden lover. If well chosen, their landscape value is unsurpassed by any other feature.

Today we have thousands of named varieties, most of which are simply duplicates and not distinct. It is becoming more and more difficult for the average person to make his choice from the long lists offered by dealers. I am offering a very select list, any one of which is of real value and distinct.

I have omitted many of the old standbys, as they can be found in all iris or flower catalogues, and also the DOMINION seedlings, as I believe in most cases the price is not consistent with their real value. Still I grow practically all of them and about a thousand different varieties, and can supply any of them as low in price as anyone.

Tall bearded iris should be planted so that the fleshy root stock (rhizome) is barely covered with soil, but the dwarf iris should be planted a little deeper. The first winter they should be protected against freezing and thawing with a light covering of leaves weighted down, as they seldom get well anchored before winter.

A. MUEHLIG (H. V.)

Ambassaduer type. A taller and richer colored flower; very strong stems. Stock limited \$3.00

ANN PAGE (Hort 1919)

An excellent and outstanding variety. Very large flowers of fine form. Self colored lavender blue. Three and one-half feet. \$2.00

ARMAND CLAUAUD (Denis)

S., intense canary yellow, slightly penciled violet all over; F., white, dotted maroon and margined canary yellow. Small flower. Late \$1.00

ASIA (Yeld 1920)

A beautiful blend of soft lavender and pinkish tan. Large flowers of good substance. Fine \$2.00

BERNARD GALLOWAY (Perry)

Extremely pretty, medium-sized flowers; S., soft violet-rose; F., bright rose lined purple; yellow beard, remarkably free. Unique for massing \$1.50

BLACK KNIGHT

One of Perry's very early introductions and still popular; S., deep violet-purple; F., black-purple. Very late. One of the darkest iris yet raised \$1.00

BRENTTHIS (Longfield No. 192) T. B.

Height 3 feet; stalked well branched; 6 to 12 flowers; foliage tall and erect, purple tinged at base. Flower medium to large, about 4 inches high and 4 inches wide. Standards arching cupped; obovate; lavender-violet, tinged and spotted yellow at base. Falls flaring, wedge shaped; pansy-violet, at base white tinged with yellow and veined brown; beard orange: Style branches light pale yellow, crests and along the center light blue. Foliage remarkably tall and erect, forming a fine garden clump. The flowers endure sun, wind and rain unusually well, and the flowering season is unusually long. Plant very healthful and vigorous. This variety flowered first for us in 1922, and since that year it has been seen and admired by many persons who have asked us to name and distribute it. \$1.50

Ann Arbor, Michigan

CARTHUSIAN (Marshall)

This is a fine blue toned iris. The true variety is very scarce. \$1.00

CASSANDRA (Perry 1923)

Tall and free flowering. Large blooms of bronzy violet rose. \$1.00

CHASSEUR (Vilmorin)

The tallest and best yellow iris originated in France. S. are a good yellow. F. are the same color shading lighter at the center with slight red markings at the base. It is taller than Amber but probably not quite so deep in color. However, it holds its own color remarkably well and is undoubtedly one of the most valuable yellow irises. We were greatly pleased with it throughout its long blooming season. \$2.00

DEUCALION (Perry)

S., apricot suffused with rose-lilac. F. have border slightly darker than S., with rich red-purple center. Cream and brown lines at base of F. Large size and pleasing effect. Height 33 inches. \$1.50

DORA LONGDON (Bliss 1918)

A very richly colored iris. S., delicate lavender suffused yellow; F., rich red-lilac, paling at the edge, with heavy brown reticulations at the haft. Height, 3 feet. \$0.50

DR. ANDRIST (Fryer)

Medium height; a dark red flower. Very late, the last to bloom. \$0.75

DU GUESCLIN (Bliss 1921)

May be described as a Blue Monsignor, though somewhat smaller in size. S., clear blue-violet of good shape. F., broad and nicely shaped, bright violet-purple. A pretty and attractive variety. 2½ ft. \$2.00

DUKE OF YORK (Perry 1923)

Splendid tall violet blue self. \$1.50

EDEN PHILLPOTTS (Perry 1923)

A really fine new iris. The flowers, which are very freely borne, are of an immense size and good shape. Standards and falls are an intense dark lavender-blue, relieved with a bold white and yellow beard. 4 ft. \$1.00

EMPERRESS OF INDIA

A fine, bold, upstanding variety of Pallida form; strong growing and profuse. 3½ ft. This is one of my finest Pallidas. \$1.00

FERONIA (Perry 1923)

Standards rosy bronze; falls old rose, heavily lined madder crimson. \$2.00

FRANKLIN BEYNON (No. 152)

This pretty variety was greatly admired at the late Chelsea Show. Producing its elegant flowers quite early. Medium height; S., broad and incurved, light rose; F., soft rose, white and yellow beard. Extremely dainty. \$1.00

GANDHI (Burchfield)

"S., medium dark shade of blue gray; F., round, flaring, a dark, rich, velvety purple, shading lighter at margins; haft, whitish ground, coffee brown at sides. The veining is so wide and close together that the ground can hardly be seen. Very late. \$1.50

GEO. YELD (Perry 1923)

Standards, bright apricot shaded rose; falls, rose crimson edged buff. Large flowers on stout branching stems. \$3.00

GEN. MCPHERSON (Perry)

S., white; F., dark blue edged white. Medium height. "Very good". \$1.00

GRAY VOILE (H. V. 1923)

22-inch. Ash gray self. A fine garden variety. \$1.00

Huron Valley Iris Gardens

GUILELESS (H. V. 1923)

30-inch. This makes a fine garden clump. Its brilliance is due to the heavy orange beard. The petals are a creamy pastel \$1.00

HARVESTONE (H. V. 1923)

30-inch. S., buff and yellow; F., pink and buff, shading to yellow at edge \$1.00

HECTOR

This is one of my favorites. S., cream; F., a very dark wine red. A very beautiful flower. "Not tall" \$0.75

HELIO (Neptune-Alcazar)

Medium-sized flowers. S., delightful shade of sky-blue; F., brilliant violet-crimson. A very striking combination of color . . \$1.00

HELVETIA

Large, well-shaped flowers of great texture. A pretty and novel combination of color. S., rose overlaid bronze; F., crimson suffused silver-rose, brown reticulated base. 3½ ft. \$1.00

HEMODUS

S., bright lavender-blue, overlaid bronze; F., long and broad, light blue; tall, branching stems. Mid-season \$1.00

HURON WILE (H. V. 1923)

28-inch. One of the finest Amoenas in cultivation; S., pure white; F., blade velvety black, haft white; veined lengthwise with black. Medium-sized flowers. Very free \$1.00

IANTHEA

Very pretty dark Pallida variety. Stout stems bearing many medium-sized flowers of great texture. S., soft rosy-violet; F., purple-plum overlaid black. Very striking variety. This is the most popular iris in the garden \$1.00

IMPERATOR (Cayeux)

S., red-violet tinted buff; F., deeper red-violet, with brown markings at base. The color is very pleasing and brightens up the garden. The bloom is of good size and was of excellent form and color in our garden. Late \$2.00

INDIAN QUEEN (1859)

S., dead leaves color; F., violet-blue, bordered and stipled yellow. Very late \$1.00

KHEDIVE

This is one of the finest blues we have. Very desirable \$0.50

JACINTO (Berry)

A tall blend that is good \$2.00

JOSHUA (H. V. 1923)

24-inch. Early. This iris is in a class by itself and will be a favorite. S., clear red black; F., red black with no veining. The feature is the red black beard, same color as petals. A beautiful iris \$3.50

JUNONIA (Collected)

This is a large-flowered Pallida type of light blue \$3.00

JUSTINIAN

This is an old variety and one of the darkest we have, with a reddish under tone \$0.50

LADY LILLIAN (H. V. 1923)

38-inch. As near the coveted pink as any iris I have seen; all petals about the shade of the Carolin Testout rose, which is a lavender pink \$3.00

LA ESMERALDA (Millet)

S., red lilac; F., white overlaid with same shade of red-lilac, with brown markings at the base. This variety makes a better approach toward red than Red Riding Hood, Powhatan or Her Majesty. Mid-season. Height, 27 inches \$1.50

Ann Arbor, Michigan

LAVINIE

S., white shaded with blue; F., dark blue. This iris I consider a very fine thing for the garden \$1.00

LEONATA (Hort)

S., pale lavender passing to silvery heliotrope in certain lights; F., very large, of slightly darker tone than S \$4.00

LIONEL MILLET (Millet)

Medium-sized plant; azure blue and old gold blended \$0.50

LORD GRAY (1840)

Same class as Quaker Lady. A tan colored bloom of beauty \$0.50

LORD LAMBOURNE (Perry 1923)

Standards a blending of fawn and rose; falls madder crimson, reticulated white at base. Bright yellow beard \$3.00

LORNA DOONE (H. V. 1923)

30-inch. Of all the plicatas, this iris stands distinctive and has a charm denied others. The petal reminds one of the American Pillar rose. White center with wide pink margin \$4.00

LURIDA REDOUTIANA

A medium sized iris of smoke gray tones \$0.50

MADONA

The blue form of Albicans \$0.75

MAID HURON (H. V. 1923)

One of the best of its color. S., old rose; F., rich velvety dark crimson, blended with old rose \$3.50

MARY GIBSON (Perry 1923)

Standards light bronze overlaid old rose; falls old rose suffused bronze; prominent orange beard \$5.00

MA TANTE AURORA

Old bronze with garnet red \$0.50

MEADOW LARK (H. V. 1923)

30-inch. I like these blends very much. This Harvestone, I believe, will rate high in its class. (Class) "Ochracea Coerulea," "Rachel Fox," etc. Blue and buff blend \$1.00

MEDRANO (Vilmorin 1920)

Standards and falls deep smoky wine red. Of rich and distinct color. Large flowers on 24-inch stems. Fine \$2.00

MENTOR (Perry)

A decided improvement on the well-known I. Archeveque, growing fully 3 ft. high. Large, well-shaped flowers; S., rich rosylavender; F., crimson-purple, with a distinct rosy-red line running through the falls. Very telling \$2.50

MIKADO (Denis)

The originator describes the color as violet mauve; to me it is heliotrope \$0.50

MILLERESS (H. V. 1926)

28-inch. Light silvery blue self, lighter than Silver Mist (Dykes) and a better plant in every way (about the same height); sometimes the flowers are shaped like a tulip. Stock limited \$2.00

MLLE. YVONNE PELLETIER (Millet)

Sky blue with prominent golden yellow beard. Late blooming landscape variety. Height 36 inches \$1.00

MONS. ARNOL (Denis)

The color tone of this beautiful iris is a bronze heliotrope \$7.50

MONS. AUSTIN (Denis)

An extraordinary reddish tone. So far one of the reddest \$2.50

Huron Valley Iris Gardens

MONS. CORNUAULT (Denis 1922)

This iris is the nearest approach to crimson in the whole race. The flowers are large, with reddish copper standards, overlaid with purple. The falls are rich crimson, very faintly tinged with purple. A particularly beautiful and striking plant, and well worth extended cultivation. 3 ft. \$2.50

MRS. H. F. BOWLES (Perry 1923)

A beautiful and striking iris, of unique coloring. The standards are broad and arching, a delightful shade of old-gold shot with purple. The falls, of fair size, are rich crimson edged with brown and shot with purple, the base being white reticulated with brown. The beard is golden-yellow. The whole flower has a distinctive silky sheen. 40 inches \$2.50

OBEDIAH (H. V. 1926)

Khamsin type. Very brilliant old rose, yellow and brownish red in combination. A fine garden clump \$2.00

ODAROLOC (Andrews)

A very good light blue Pallida \$1.00

OLIVE MURRELL (Perry)

"A magnificent tall-growing, large-flowered variety of unusual coloring, which might almost be described as a greatly improved "Quaker Lady." The S. are of great size and finely arched, deep lavender-rose shot with bronze. The slightly reflexed F. are a rich lavender-blue shot with rose and bronze. The rich buttercup yellow of the beard and style arms lights up the whole flower in a most beautiful manner. The blooms are very sweetly scented. A fine grower and free flowering." (Description by Mr. Murrell of the Orpington Nursery Company) \$7.50

OLYMPUS (No. 99)

This is an extremely beautiful variety. Large heavily built flowers, which are produced freely on stout, branching stems. S., broad, incurved, rose overlaid soft bronze; massive falls over 2 inches broad, madder crimson heavily reticulated white at the base. Bold yellow beard. Over 4 feet. Mid-season \$3.50

OSSIAN (Salter)

S., very pale yellow; F., light ruby claret \$0.50

PALEMON (Perry)

S., very light buff, tinted lilac; F., buff, suffused deep lilac-purple. The flower lights up at the center like Afterglow, is very dainty, of medium size, and blooms early. Height 36 in. \$1.50

PARC DE NEUILLY (Verdier)

A splendid purple landscape variety. S. slightly lighter than F. A very floriferous variety which blooms in mid-season. Height 30 to 36 inches \$0.50

PERRONE (Denis)

A mist blue of value \$3.50

PETIT VITRY

S., bright violet; F., violet-purple, reticulated white \$0.50

PRINCESS BEATRICE

The true variety \$1.00

PRIVATE W. A. LOGAN, M. M.

Massive, well-built flowers. S., large, incurved, clear blue; F., at right-angles, deep purple-plum, reticulated white at base, orange beard. 3½ feet. \$1.00

REGAN (Newlands 1920)

Pallida x Trojana seedling. A remarkably fine and distinct rich violet-blue, early flowering bi-color, with exceptionally long falls, heavily reticulated brown on a white ground, with canary-yellow beard. 3½ feet \$2.50

Ann Arbor, Michigan

RICHARD II

A very attractive variety, dwarf and remarkably free. S., pure white; F., deep violet, conspicuously margined white. A. M., R. H. S. \$1.00

RHEINGAUPERLE (Goos and Koenemann)

S., light lilac-pink; F., mauve-purple with red-purple markings on cream base. Orange beard. One of the best pinks \$2.00

RIKOCHI

Ricardi x Kochi \$2.50

SAMITE (Bliss)

White. I like this iris better than any white I grow, not excepting Micheline Charraire and many others \$2.00

SCHLAWASSEE (H. V.)

Formerly Red Wing. Tall and stately; the most beautiful red iris I have seen. Of real value \$5.00

SILVA (Denis)

Squalens x Ricardi. Large flowers on tall stems. S., blue; F., dark violet, heavily veined oak brown \$5.00

SOLFATARE (Verd)

Fine sulphur-yellow, blended with crimson and blue. This is one of my favorites \$2.00

SOUVENIR DE LAETITIA MICHAUD (Millet (1923)

We consider this to be the finest of the recent French introductions. Of great vigor, with strong stems, over 4 feet high, bearing enormous flowers of fine texture. Standards Lobelia blue shading off towards the edges to pale blue. The falls are of the same tone, beautifully veined with yellow on a white ground at the haft. A grand flower \$7.50

STEEPWAY (Scott)

S., fawn, suffused red-fawn; F., rose-mauve with brown reticulations; beard, orange. Its distinctive characteristics are the rounded shape of the F. and S. and the soft, artistic glow it makes in the mass. Mid-season. Height, 36 inches \$1.00

THE PRESIDENT

Medium height. Very floriferous. Brown red color. Very fine \$0.50

TINTALLION (Sturt. 1921)

Distinct and makes a lovely low mass. White standards and falls looking as if the purple sap had left the veins and settled into the tips. 2 feet \$1.00

TRISTRAM (Bliss 1919)

Standards of the clearest white. Falls deep rich purple, richly reticulated at haft. Most distinctive and beautiful. 27 inches \$1.00

VAN GERTI 30"

A smoke gray self \$0.50

WINONA (H. V.)

A very good light pink \$2.00

YELLOW HAMMER (Denis)

Of medium height. I consider this the most pleasing yellow I grow \$2.00

4 ZINGARA (Williamson No. 9) 18"

The only true rich orange we have. S., brilliant orange; F., burnt orange and tawny \$2.50

Huron Valley Iris Gardens

IRIS REGELIA

A group of iris from Turkestan. They differ from the ONCOCYCLUS in having two flowers instead of one. The ONCOCYCLUS type is rather globular, while in the REGELIA the flowers are long and pointed, the falls hang vertically. The beards of REGELIA are linear, while ONCOCYCLUS the hairs are scattered and form a cushion. I have found them very hardy and do not lift them annually. I do, however, raise the beds and give them good drainage.

Delivery after August 15th.

HOOGIANA

A clear blue of substance, of the true Regelia characteristic ..\$2.00

KAROLKOWI

Cream ground, with reddish brown veining\$2.00

VAGA

Flowers pale blue, lined bronze brown\$2.50

POGO — CYCLUS

This class of plants are very satisfactory and very hardy. They are the result of crossing the Pogon, or bearded iris, with Oncocylus, or cushion iris. I am offering a very complete collection.

Delivery after flowering, about July 1st.

BELLORIO (Mohr) Korolkowi x Pogon

A flower of mouse gray, with the Korolkowi type flower. Very fine\$2.00

CARMELO (Mohr)

Same cross as above. Flowers an attractive shade of blue; Korolkowi type\$2.00

DILKUSH (Foster)

A large globular flower of a gray-blue color\$2.00

DORAK (Foster)

Similar to the preceding\$2.00

HAMADAN (Foster)

Paradoxa x Pogon. S., light violet; F., whitish, heavily lined purple. Most of the Foster hybrids have either Paradoxa or Iberica, which gives the hybrids the characteristic black blotch and cushion beard\$3.00

LADY LILFORD (Foster)

Very large flowers, black-blue, on tall stems (30 inches). This is a very valuable plant and very hardy\$2.00

MAD. SAVOUILLAN (Denis)

Bartoni cross. S., light blue lilac, with deeper veinings; F., grayish yellow, veined a deeper tint. Early. Stock limited\$5.00

MESTOR (Foster)

S., light blue; F., light violet purple; yellow beards\$2.50

MONS. STEICHEN (Denis)

Chamoeiris x Iberica. Described in dwarf section.

NAZERIN (Foster)

Light mauve purple, small crimson blotch\$3.00

NEFRET (Foster)

S., lavender mauve; F., violet purple; orange beards\$5.00

PANDORA (Foster)

While the color is similar to Dilkush, I like it much better\$2.50

PARSAN (Foster)

Very dwarf; of a very dark blackish blue color\$1.50

Ann Arbor, Michigan

PARVAR (Foster)		
Similar to Parsan	\$1.50
SEMELE (Foster)		
S., soft sky blue; F., light crimson purple	\$5.00
SHIRAZ (Foster)		
S., bright purple; F., bronze purple. Stock limited	\$5.00
SHIRIN (Foster)		
Similar to Dilkush		
SHUSHAN (Foster)		
Red toned throughout; not tall. A fine thing	\$5.00
SIR TRAVER LAWRENCE (Foster)		
S., soft blue; F., ground white, lined plum purple; yellow beard	\$4.00
VULCAN (Foster)		
This one I consider the best in this class. Tall and stately, large flowers of a blackish plum self color	\$3.00
WILLIAM MOHR (Mohr)		
Pogon x Gatesii. A remarkable cross. Gatesii is a very tender iris and difficult to handle, but this cross seems to be quite hardy. No stock for sale.		
ZWANENBURG (Denis)		
Lutescens x Suziana. Very hardy. Very curious combination of cream and maroon. Early	\$0.50

BEARDLESS IRIS
Miscellaneous Species

This group contains some very beautiful iris. I am listing only those of which I have sufficient stock and that will do well.

ACOROIDES		
The shape of the flower and the soft, light yellow color are very pleasing	\$1.00
CUPREA (syn Fulva)		
Native to the U. S. Color a reddish copper. Fine	\$0.50
DELAVAYI		
A Chinese species. Color a rich violet, and quite tall	\$1.00
FOLIOSA (syn. Hexagona Lamancei)		
Flowers nestle among the leaves on tortorus stems and are the richest of blue in color	\$0.50
GRAMINEA		
This is a very fine iris. Blue, purple, red and white	\$0.60
GULDENSTAEDIANA (Blue)		
Bold flowers. Pale blue flowers	\$0.50
HEXAGONA		
A southern species of the most beautiful blue in color. Seldom will it flower in the North	\$0.50
JAPONICA (Fimbriata)		
Ledger's variety. Hardier than the type	\$2.50
JAPONICA FOLIS VAR.		
Like the type, except the foliage; not hardy	\$2.50
LONGIPETALA SUPERBA		
Porcelain blue flowers. Robust	\$0.50
LONGIPETALA		
California species	\$0.50
LAEVIGATA BLUE		
True, blue flowers	\$0.50
LAEVIGATA ALBA		
White form of above	\$1.00

Huron Valley Iris Gardens

MILESHI

This is a very pretty Evansia from China. Golden mottled crest. I have grown these in a zero temperature in winter for four years \$1.00

OCHROLEUCA

A robust species, 4 to 5 feet tall. White, stained yellow \$0.75

SPURIA JUNO

This is a very fine blue flower. Tall and robust \$1.00

SPURIA LORD WOOLSEY

This is similar to Juno \$0.50

SPURIA MRS. TAIT

A light porcelain blue \$0.75

SPURIA NOTHA

S., rich violet; F., blue, spotted yellow \$0.75

TECTORMUS BLUE

True \$0.50

TECTORMUS ALBA

The white form of above \$1.00

TOLMIEANA (syn. Missouriensis)

Pale blue to white and lilac \$0.50

IRIS REGELIA — CYCLUS HYBRIDS

This group of iris have the characteristics of the ONCOCYCLUS and the hardiness of the REGELIA.

I have grown them for years, give them no special protection, nor do I lift them annually as some recommend, still they are lavish with their bloom. The variety HERA proves as liberal with its bloom as a pansy plant. Large globular flowers of a rich ruby red, and very hardy.

Delivery after August 15th.

BEATRICE

S., soft pearl gray; F., dark violet \$2.00

CAMILLA

S., deep violet blue; F., velvety brown \$3.50

CLOTHO

S., violet blue; F., brownish purple \$3.50

HEBE

S. and F., light ground, veined violet blue \$1.50

HECATE

S., lilac rose, heavily lined \$1.50

HERA

Robust growing. S. and F., rich ruby red, with bronze and blue lines. This is the finest and best doer of this group \$1.00

KOLYADES

Cream ground, heavily lined reddish brown \$1.50

ORESTES

Rich mahogany brown \$3.50

OSIRIS

S., silvery white; F., lilac purple \$3.50

PARTHENOPE

Lilac lines on creamy ground \$1.00

Ann Arbor, Michigan

IRIS SIBIRICA

A most important garden decoration, and the easiest to grow. Contrary to most iris, they make one of the best cut flowers. The more moisture they get, the taller and longer the stems. That does not mean they should be grown in water.

SIBIRICA ALBA

White \$0.35

BAXTERI

S., blue; F., white, tipped blue \$1.00

DUCHESS OF YORK

S., dark violet; F., rich dark blue \$1.00

EDNA PERRY

S. and F., dark blue \$1.00

EMPORER

Large flower; deep blue \$2.00

FLORIE RIDLER

Exceptionally rich blue \$0.75

GEO. WALLACE

S., light blue purple; F., deeper color \$1.00

HAEMATOPHYLLA

S., light violet blue; F., purple \$0.35

KINGFISHER BLUE

This is one of the finest of this class I have ever seen. It grows very tall, about 42 inches \$3.00

MRS. HILL

China blue \$0.50

LADY NORTHCILFFE

Rich shade of violet \$0.50

MRS. PERRY

Silver white, flushed rose \$1.50

MRS. ROWE

S. and F. silvery white flushed rose \$1.00

MRS. SANDARS

Brilliant dark blue \$0.50

NORA DISTIN

S., violet; F., dark China blue \$0.75

PERRY'S BLUE

S. and F., sky blue \$0.75

PERRY'S PIGMY

Dark violet, quite dwarfed \$0.50

SNOW QUEEN

Pure white \$0.35

TRUE BLUE

A very fine light blue \$0.35

SPANISH IRIS

(Xiphion)

CANJANUS—Clear yellow

LOUISE—Pale pearl blue

RECONNAISSANCE—Bronze

SNOWBALL—White

I can supply strong bulbs at 75 cents per dozen. September delivery.

Huron Valley Iris Gardens

HEMEROCALLIS

(Lemon Lillies)

CALYPSO (Burbank)

One of the best of the daylillies \$0.50

DR. REGEL

Color a rich butter yellow, the margins of the segments beautifully ruffled.

FLORHAM

A large, trumpet-shaped flower; golden yellow color; tall; late .. \$0.50

UNUSUAL IRIS

DICHOTOMA (syn. Vesperiris)

From North China. Pinkish lavender flowers on widely branched stems. Flowers open in the early afternoon and fade at evening. But the plants produce more flowers than any other iris. Begins blooming about the middle of August and continues for three or four weeks. Delivery any time.

	3	6	12
Blooming size plants	\$1.00	\$1.75	\$3.00

PALLIDA (Folis. Var.)

Flowers are like the type, except a trifle darker. Foliage beautifully variegated, cream and green. A good, strong grower .. \$1.00

KAEMPFERI IRIS

(Jap Iris)

I am supplying these this year in unnamed plants in good variety at \$2.85 per 6 and \$5.00 per 12, collect by express.
